

DEPTH to BEDROCK

Cartography by Bill Shockley

20 0 20 40 60 Miles

1:2750000

Wisconsin Transverse Mercator Projection
NAD 1983, 1991 adjustment

The primary source for this data layer is a 1973 map at 1:1,000,000 scale published by the Wisconsin Geological and Natural History Survey (WGNHS) and USGS. Where more recent information was available, the USGS updated the 50' and 100' contours of the depth to bedrock map at a scale of 1:250,000. Soil association data and other information were used to add a 5' contour to the data layer.

The data shown on this map are available on a cost of resources basis from WDNR, GeoServices Section. See the "GIS Datasharing" section, visit <http://www.dnr.state.wi.us/org/at/et/geo>.
